Great game, bad port.

Avoid dotemu.. It did cost less than 1 \u20ac and still feels like i wasted it on a mobile port. A beautifully made soundtrack that is of the utmost perfection. I listened to the starbound OST 2 years straight on my OG DS with an R4 card, and I believe this soundtrack may even topple it in regards to bang for your buck, I absolutely love it <3. The mouse controls on this classic wonderful game are a disaster. As it is right now the game is unplayable and causes you to fear that your mouse is broken. It feels broken until you find your way out of the screen and back to Steam. It's a classic game and if the controls worked it would be it's same great self but it's not and as it is now it's frustration. Stay away from this version of the Jewel Quest games.. This is a fun game but it does take a little strategy to start off. once you get going though it becomes an interesting challenge that will make you waste hours of free time without you realizing.. This game fails on a puzzle design level. Two basic quality standards I expect out of a puzzle game of this nature are that there are no superfluous parts of a puzzle (provided that misdirection is not the point) and that the requirement for a rank such as three stars is the optimal solution for at least a large percentage of the puzzles if not all of them. This game fails repeatedly on both. A sample puzzle could have 20 dots and claim that three stars is ten moves or less. I just completed it in three moves without even touching three quarters of the grid. This alone tells me that no quality control went into the puzzles themselves.

To add insult to injury, twice within the first 15 levels I completed one below the three star rank only to be given two stars, at which point I replayed the puzzle with the same exact solution and was given three stars, so there's a serious bug. Further, the difficulty is schizophrenic even if I limit myself to the three-star guidelines; the game takes three levels to start throwing seemingly random collections of dots at you and then every puzzle looks the same.

Finally, the navigation interface is cumbersome. The escape key pulls you completely out of a puzzle back to the level select screen. There is no restart button so the above is the only real way to restart - except that there is a restart button when you complete the level.

I do not recommend this game even on sale until these issues have been properly addressed.. Great game, controls are a bit wonky at first, but after you get used to it they are great. There are several player skins you can unlock and chair skins as well. Worth every penny it cost. The final boss is somewhat difficult, but is a worthwhile challenge and really pays off after beating it. Very fulfilling final boss race. 13/10 would office race again

Good game where the points don't matter. I always found Solitaire relaxing. This one is good to chill out to.

Just to note though it's not as challenging as some versions that I've played. There is no point counter, there is no timer, at least from what I can see and there are no options for either anywhere. It would also have been neat to see how long it takes to solve the game. Honestly though the only thing I really have found annoying with it so far is that when you are playing and ask it to display a new card, if you could not use the previous one, it removes the old card. So if you happen to use the new card and could now use the old one. There is no way to use the past card without going through the entire deck again. I'm not sure why they did that. Would have liked it if they had left that option. Not a bad game though. As you can see by the hours I've spent playing it. There are a lot of options for the deck display and the table display. You can also move these around for a different vantage point if you like.. This is a game all about momentum. It's a shame that, in the first ten minutes, the game seems to do everything it can to interrupt the momentum, and because of that, learning the controls. Tooltips pop up constantly telling you how to play the game after you've already started playing.

These interruptions cause a loss of perspective for what the character is doing, meaning you're even more likely to crash after one pops up, leading you to restart, and then have to go through that same tooltip again, leading to more crashes. The tooltips would be better if presented after crashing, or in small video tutorials before starting.

It's pretty, it's inexpensive, and it might be fun if the game allowed you to play.. Decently fun and reasonably challenging, but the fact you can't leave until you finish the game is way too annoying.. A beautiful game, the developer needs to develop the game.. Guys, I just finished the first two routes and I gotta say, in my opinion, the humor in this game is top tier. don't let the low reviews fool you, this is a hidden gem of a VN. it's also cool how after the first two routes, you switch protagonists and take over as the original's best friend, who is also one of the best bros I've ever seen in a VN. The translation was very very good, I probably only found two or three mistakes so far but they were very minor. in short, if you are a fan of these types of VN's I would definitely recommend this giving it a 9/10.. From a (super newbie) bass player's prespective.

Are you a newbie?
Slides got you down?
Tired of songs requiring you use too many strings? Too many flourishes?
Not quite used to moving all over the fretboard?
Are you looking for a song that will boost your confidence?
Look no further!

This DLC is perfect for the player who is a little down that they're having issues learning some of the more 'advanced' techniques. In this track requires you to use 2 strings and move about 5 spaces on the fret board. At its most intense, you'll need to strum twice a second (if that). It's rather tame. Additionally you'll get some practice muting the strings.

That's it, that's all there is for this track. It's rather simple, but your part in the song is very pronounced compared to some other tracks. This makes it much easier to hear how you're doing once you start to memorize the track.

All in all it's a simple track that can provide you a little mastery in a song. A top pick for bass newbies getting into the game for sure.. \ub9c8\uce58 \uccb4\ud5d8\ud310\uc744 \ub3c8\uc8fc\uace0 \uc0b0 \ub290\ub08c\uc774\ub124\uc694. \ubaa8\ubc14\uc77c\ubc84\uc804\ub9cc \uc0dd\uac01\ud558\uace0 \uc0c0\ub354\ub2c8 \ubcf4\uc2a4\ub9cc \uc81c\uc678\ud558\uace4 \ucd08\ucc3d\uae30 \ub4dc\ub798\uace4\uc2a4\ud53c\uc5b4.

Feels like I bought a beta version game. It should have been supposed to have all the contents that mobile version had.. The devs have been working on this game its fun, it reminds me of the movie krull,. This looks cool. Really wanted to keep playing but man, the movement is not so good, especially on horseback where I was getting quite nauseous. The turning on the horse is especially stomach turning. Unfortunately I didn't get very far because of this.
