After how disappointing Broken Sword 3 and 4 were, this did feel like a breath of fresh air to go back to the traditions of the original Broken Sword games with the simple point and click, even if I had to option to use my controller. But the ending did make me feel a little unsatisfied, just a bit. Like does George clear his name after he was framed throughout most of the game (hope I didn't spoil too much). But it felt like Broken Sword was picking up after a downward spiral after it seemed to have peeked after Broken Sword 2. But I wouldn't mind a 6th game someday.
