Sweet game, reminds me of an old arcade game I used to play but it didn't have the auto shooting stuff this one does. Easy to pickup and play for anyone but has a cool balance as you get further in it gets tougher and tougher but you end up getting a different experience each time. Great value for the price!

I Recommend for arcade game fans and survival type lovers!. Classic artistic game about a massive sinuius old creature beneath the waves appreciating Humanity or something..... Pitiabile trash crashes on attempts to load, with or without patch. Computer in use is 8GB RAM laptop capable of running DoTA2 at medium settings.

Do not buy.. you get her in noire's chapter :P. Revolt type Rc Racer game that pretty much nails the fun of which it is aiming to emulate ... recommended for those with \$5 bucks to spare. The physics are far superior on this game to Revolt , the physics are its main selling point.. I do know Jacks. Maybe it meant the Jack of Clubs\Spades\Hearts\Diamonds?. It's a really fun platform we that makes you rage a bit but it's fun when you're queueing for other games and it takes a while to queue. 40K + Waves + Team play.

Half rts V Half Action

Great story, amazing music, good graphics, and great characters. My only complaint is that it is a bit short. 9/10.. Great game but very short and the constant waiting for my xpacs is getting annoying. Plus they have this loser named Pyro in the discord chat that sucks too. But the game itself is fun, needs more upgrades for ships and such.. Very good, indy game that feels like a 3d take on old classics. I has very simple game mechanics but has a unique feel to it. Needless to say, I highly recommend it, especially considering it will only get better with time since it's early access.

As a side note, as I was playing it my kids came over and insisted on playing, and now it's one of their favorite games. It's probably a little violent for them but since there isn't any blood I don't think there's much harm in it.. Game is a fun party game sadly it doesn't have a single player or online multiplayer (yet they are looking to implement it if possible) i do recomend it if you have someone to play.
